

“The Language of”...Apis Mellifera

Any hardcore cruciverbalist will be aghast at the less than symmetrical nature of this puzzle grid. I apologize for that. All errors, typos and clues of a dubious nature are my doing and I am sorry for those as well. My thanks to the VBC's wsmvgn for being kind enough to test out this puzzle and point out some of the errors. My thanks as well to Laurie R. King for inviting me to be part of this celebration I am honoured.
