

# *Dreaming Spies* origami balloon

(by Laurie R. King)

- 1) Print with margins set to page edges. Trim to precise square.
- 2) With plain side down, fold together across the middle; unfold. Then with plain side up, fold corner to corner, twice (see dotted lines).
- 3) Bring together edges to make this shape – printed side is out.
- 4) Fold lower points to top; turn over and repeat.
- 5) Fold side corners to center; turn over and repeat.
- 6) Tuck top corners into sleeves; turn over and repeat.
- 7) Blow gently into the hole found at one end.
